✅ BENEFICIARIES AND BENIFITS

How it benefits the Community?

The community gets remunerated for their data sharing through DT coins as airdrops. This creates wealth within the community. The project inherently brings in various schemes including referrals, bonuses and Credits in terms of reward and DSF coin.

### How it benefits the Enterpreneurs?

The Enterpreneur community will be able to build their own dApp Solution Using Our AI & ML-based Technology. This enables millions of blockchain enthusiasts across the world to innovate and create wealth by listing their own tokens.

How it benefits the Businesses?

The Organization are constantly looking for clean and reliable data to feed into thier market intelligence and branding strategy. The current available data lack integrity and reliablity.

The System will record the consumer behaviour directly from the consumer and the same will be time stamped and recorded onto blockchain, thus making it immutable single source of truth.

This data will be pack as per the organization's need so that is provided he reuired insight in to their respective customer purchasing behavior nd persona, the organization can use this information for various use like opening a shop, changing the product, distribution stretegy etc.
